Payment of the charges and payment obligations

The aircraft owner, user and/or person acting as the representative of the owner of the aircraft are jointly and severally liable for the payment of the charges in this price list.

All rates are in SEK and are exclusive of any taxes or levies payable thereon. The total amount shall be rounded off to the next full SEK. Value added tax shall be paid according to the applicable law.

All charges prescribed according to this price list are due for immediate payment to Karlstad Airport AB. Unless otherwise agreed in writing, the owner, pilot or representative of the aircraft shall report to the Airport Office immediately before take off or immediately after landing at the airport.

Invoicing is the standard form of payment at KSD. Agreement can be made concerning periodic invoicing, provided the owner or user of an aircraft operates on a regular basis or has higher volumes of traffic. Payment terms may not exceed 30 days.

Upon request, the airline is obliged to make all necessary information available to KSD for credit rating purposes. All information received will be treated confidentially.

If KSD considers the outcome of such credit rating to be unsatisfactory, the airport may request a first class on demand bank guarantee for a suitable amount from the airline on order to grant the airline periodic settlement of account.

In the event of failure to the charges due, the following provisions shall furthermore apply:

- Late payment will result in interest of overdue payments of 15.5%
- In the event of failure to pay, KSD may inform the airline that it will not be allowed to operate from SKSD until all charges plus interest and service fees have been paid in full
- In the event of failure to pay, KSD is entitled by law to take legal action against the aircraft including but not limited to attachment of the aircraft itself, its fuel and engines irrespective of who may be from time to time the owner of such assets and KSD will, without incurring any liability from the owner of the aircraft, the holder and user thereof and any person acting as the representative of the owner, the holder or user thereof be entitled to prevent the aircraft from departing from KSD until all charges have been paid in full
- Immediately after failure to pay, KSD may demand a Banker's guarantee for the amount due and for expected charges for the following three months
- After failure to pay KSD may change its agreed payment terms concerning periodic invoicing and revert to immediate payments for future take offs from the airport

Changes to the price list

The KSD Price List is valid as of 1 September 2011 until the Price List is revised by Karlstad Airport in which case such revisions will be disclosed on the web page of Karlstad Airport. (www.karlstadairport.se)

Other

KSD is not liable for any theft or damage caused by fire, water or any other cause with respect to the aircraft, its equipment, crew, passengers, cargo etc during the aircrafts stay at KSD inside as well as outside.

KSD has the authority to determine charges for special services at the airport. Charges not listed in this Price List are quoted by Airport on request.

KSD will publish its principles regarding discounts on the Airport Charges for the start up of new routes.

Any disputes arising out of or related to these charges regulations including the interpretation, validity and payment of charges due, shall be governed by Swedish Law and brought before the Courts of Sweden, with the district court of Karlstad being the court of first instance.

The English language version of these charges and regulations shall be the governing text.

Environment

Karlstad Airport is environmentally certified in accordance with ISO 14001. Through our environmental management systems we strive to minimise the environmental impact of our operations and we are constantly working to reduce emissions into soil, water and air. The airport's environmental provisions include requirements for flight paths (communicated through AIP), noise and emissions.

One of our environmental provisions involves keeping nitrogen oxide emissions from aircraft engines as low as possible. As a result, we are in continuous discussion with airlines, emphasising the importance of ensuring that flights in and out of Karlstad Airport use planes with the most eco-friendly engines possible.
